

AYCLIFFE
Business Park

We want you to literally put yourselves 'on the map' with our new initiative to promote and engage with Aycliffe Business Park residents!

By putting yourself 'on the map' you'll be able to enjoy improved brand awareness with your fellow residents and wider business communities, as well as being kept up-to-date with important ABPC events and developments.

Our 'On the Map' project aims to:

- Increase your business' visibility and provide the opportunity to showcase your company, its products and services
- Ensure that businesses have access to additional external support
- Encourage membership and active engagement with the wider Aycliffe Business Park Community

Aycliffe Business Park remains the largest single employment area in County Durham and it is now thought to be the biggest in the North East, with several hundred companies now employing 8,000-10,000 people.
